

TTWin 3

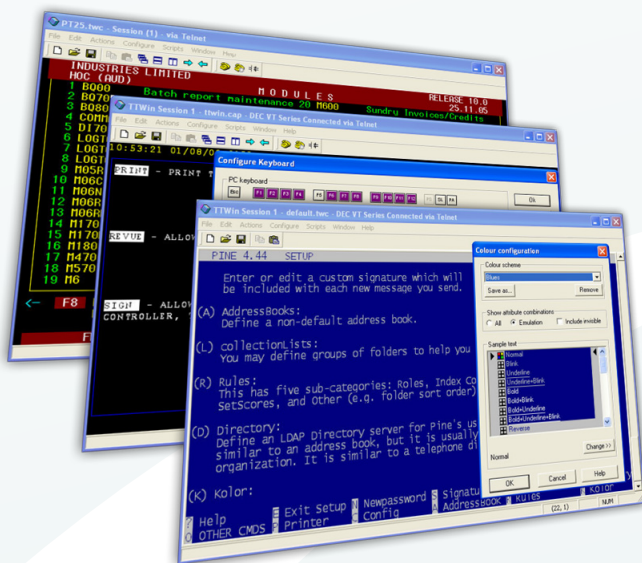

High Quality Windows Host Connectivity

TTWin 3 is Turbosoft's offering for superior Terminal Emulation software and offers new and exciting features, reaching greater heights in useability, configurability and user friendliness whilst maintaining the same level of quality and reliability.

TTWin 3 has support for more than 80 different terminals giving users access to all hosts from the one product. Additionally, Turbosoft's outstanding design and development of TTWin ensures that having simultaneous connections to a number of dissimilar hosts uses the least possible amount of system resources.

TTWin 3 offers users so much more in terms of configurability, session control, screen enhancing capabilities, productivity and of course overall performance. Additionally the accuracy of each TTWin emulation ensures that you will be able to make the most of the Windows environment without compromising the performance or usability of your host system applications.

Like all Turbosoft products, TTWin 3 is backed by outstanding support available via telephone, internet and e-mail. Turbosoft's level of technical support is prompt, accurate and available when you need it earning us a world wide reputation as being second to none.

★ Features at a glance

Gain access to all hosts

TTWin 3 supports more than 80 different terminals in the one product. Each emulation is extremely accurate and configurable.

Data security. SSL3 + SSH1 & SSH2

Turbosoft regards data security to be an essential part of a terminal session and as such, we support industry standard encryption as standard.

OCX Interface

Utilize TTWin's OCX interface to make TTWin 3 a part of an external application. Adding terminal emulation functionality to your application has never been simpler.

Full keyboard re-mapping

Extremely flexible keyboard re-mapping. Users can map text strings, host sequences or emulation keys to any key combination on a PC keyboard.

Extensive character set support

TTWin comes with full code page support and powerful character selection facilities cater for the complex character set requirements found in many languages.. Emulations may use as many code pages as required, independently of other sessions.

Powerful scripting language

TTWin's scripting language is TTWin BASIC. Similar in syntax to Visual Basic, this simplifies the learning process allowing the advance user to perform complex process on data. Enhances the legacy applications with dialog boxes, scroll regions and automatic reformatting of data.

DBCS character support

TTWin offers full support for double byte character fonts, including Chinese, Korean, and Japanese language fonts.

Screen enhancing features

Use 'hot spots', scripting and toolbars to extend the life of your host system by giving it a make over.

 Supported Terminals

ADDS	ADDS2020 Viewpoint Mode, ADDS Viewpoint
ANSI	ANSI - X3.64, ANSIEA - ANSI Extended Attributes
AWA	ADM 11/R/W/P/H & LSI
Bull	Bull VIP 7800
Data General	DG 210/211/216/216E, DG410/411/412, DG460-462/470 Character mode
DEC	DEC VT 52/100/101/102, DEC VT220, DEC VT320, DEC VT340, DEC VT420
Fujitsu	Fujitsu 6681
Hewlett Packard	Hewlett Packard HP 2392A, Hewlett Packard HP 700/92
IBM	IBM 3101, IBM 3151, IBM 3164 - Color, IBM 3270 TCP & SNA, IBM 5250
ICL	ICL 7561, ICL VT220+
Liberty	Liberty Freedom 1
Mcdonnell Douglas	P8/P9, P12, Micro Fusion
Prime	Prime PT25, Prime PT250
Quantum	Quantum QNX
Siemens Nixdorf	Siemens Nixdorf 97801
Stratus	Stratus V102, Stratus V103, Stratus V105
Tandem	Tandem T653
Televideo	Televideo TVI950, Televideo TVI955
Unisys	Unisys T27
UNIX ANSI	SCO ANSI Color Console, Interactive UNIX Color Console, Bell Tech. UNIX Color Console, AT&T UNIX Color Console, Linux
Wang	Wang 2110
Wyse	Wyse 50, Wyse 60, Wyse 350

About Turbosoft

Turbosoft Pty Ltd is a privately owned, 100% Australian company with over 20 years experience as a leading manufacturer of enterprise wide connectivity and network performance solutions.

Today Turbosoft markets its products in more than 30 different countries with numerous offices, resellers and distributors spanning across all parts of the globe. Our customers include an enviable list of local & international clients from a diverse range of market sectors.

 Supported Operating Systems

Windows 7
Windows Vista
Windows XP
Windows Server 2008
Windows Server 2003

TTWin 3 will run on the following operating systems but is not supported: Windows 95/98/NT/2000.

 Communications Protocols

SSH 1&2
Telnet (TCP/IP)
Telnet via SSL3 Tunnel
Telnet via SSH Tunnel
Serial
Rlogin
HP Network Services
Microsoft SNA server
Netware for SAA

 File Transfer

FTP Drap & Drop
Pick
IBM IND\$FILE
Kermit
Xmodem
Ymodem
ZModem
